6. CONCLUSION	21

1. Introduction

The UNI-RUN – Marathon & Virtual Run Coordinator System is a web-based platform developed to support the management of marathon and virtual running events within the university. The system is developed using Java Web Technology and applies the Model View Controller (MVC) architecture to organize the application and its functions.

The system allows participants to create an account, log in, view available running events, register for events, submit their running results, and view their result status. For administrators, the system provides functions to manage event information and review participant result submissions.

By providing these functions in a centralized platform, the UNI-RUN system aims to simplify the management of running events for both participants and administrators. It also helps organize event and participation information more efficiently within a single web-based system.

2. Problem Statement

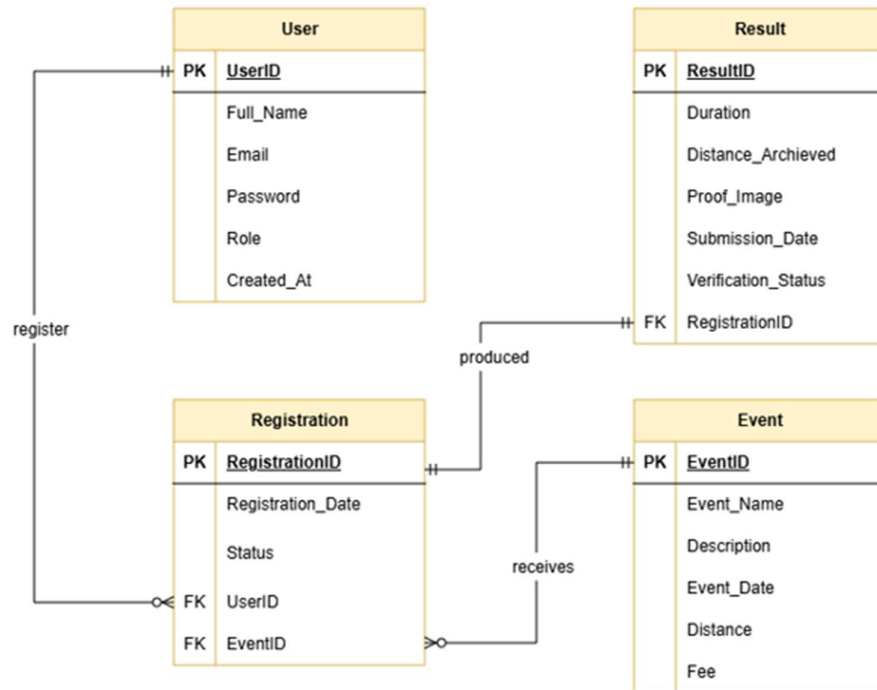

- Marathon and virtual run activities may involve different processes such as event registration, participant management, and result submission, which can be difficult to manage separately.
- Participants may face difficulties in accessing event information, registering for running events, and keeping track of their participation and submitted results.
- Event organizers need an efficient way to create, update, and manage running event information without relying on manual record management.
- Managing participant registrations and virtual run result submissions manually may increase the risk of inaccurate records and make the verification process more time-consuming.
- A centralized web-based system is needed to integrate event management, participant registration, result submission, and result verification into a single platform.

3. Objective

- To develop a centralized web-based system for managing marathon and virtual run events.
- To provide participants with a simple platform to register, log in, view available running events, and register for events.
- To enable participants to submit their running results and view the status of their result submissions.
- To enable administrators to efficiently create, update, and delete event information through the event management module.
- To provide administrators with a platform to review and manage participant result submissions.
- To improve the efficiency and organization of marathon and virtual run management by integrating participant and administrator functions into a single system.

4. Entity Relationship Diagram (ERD)

The ERD consists of four main entities: User, Event, Registration, and Result. Registration connects users to the events they join, while Result stores the running results submitted for each registration. The relationships allow the system to manage participants, event registrations, and submitted results efficiently.

5. User Manual

Participant/User Interface

i. Login Page

The Login Page provides secure access to the Uni-Run system for registered users and administrators. Users are required to enter their registered email address and password before accessing the system. The login function validates the credentials through the database and redirects authenticated users to the appropriate dashboard based on their assigned role. The page also provides navigation to the registration page for new users.

- **Enter Email Address:** Enter the registered email address in the email field.
- **Enter Password:** Enter the password associated with the registered account.
- **Click Login:** Click the “Login” button after entering the required credentials.
- **Register New Account:** New users can click “Register here” to create an account.
- **Back to Home:** Users can click “Back to Home” to return to the main page.

ii. Register Page

The Register Page allows new users to create an account in the Uni-Run system. Users are required to provide their full name, email address, and password to complete the registration process. After successful registration, users can log in using their registered credentials to access the system.

- **Enter Full Name:** Enter the user's full name in the provided field.
- **Enter Email Address:** Enter a valid email address to be used for the account.
- **Enter Password:** Enter a password for the new account.
- **Create Account:** Click the “Create Account” button after completing all required fields.
- **Login Existing Account:** Existing users can click “Login here” to proceed to the Login Page.
- **Back to Home:** Users can click “Back to Home” to return to the main page.

The screenshot shows a web browser window with the URL `localhost:8084/UniRunSystem_Copy/register.jsp`. The page features a dark blue header with the "Uni-Run" logo and navigation links: Home, Events, Leaderboard, Login, and Register. A "Chat" button is also visible. The main content area has a light blue gradient background. In the center, there is a white registration card. At the top of the card is a "GET STARTED" button with a document icon. Below it, the heading "Create Your Account" is displayed, followed by the text "Join Uni-Run and start your marathon journey today." The card contains three input fields: "Full Name" (with the text "nazim azman"), "Email Address" (with the text "nazimazman@gmail.com"), and "Password" (with masked characters "*****"). A blue "Create Account" button is positioned below the input fields. At the bottom of the card, there is a link "Already have an account? Login here" and a link "← Back to Home". The footer of the page is dark blue and contains the text "© 2026 Uni-Run System | Marathon & Virtual Run Coordinator".

iii. Dashboard

The Dashboard provides participants with an overview of their activities in the Uni-Run system. Users can view their activity summary, registered events, event details, and access functions to browse events or submit results.

- **View Activity Summary:** Users can view the total number of events joined, results sent, approved results, and results pending review.
- **View Registered Events:** Users can view all events they have registered for in the “Your Registered Events” section.
- **View Event Details:** Each registered event displays the event name, date, distance, registration date, and current status.
- **Browse Events:** Click the “Browse Events” button to view and register for available events.
- **Submit Result:** Click the “Submit Result” button to submit the running result for a registered event.
- **Log Out:** Click “Log Out” from the navigation bar to end the current session.

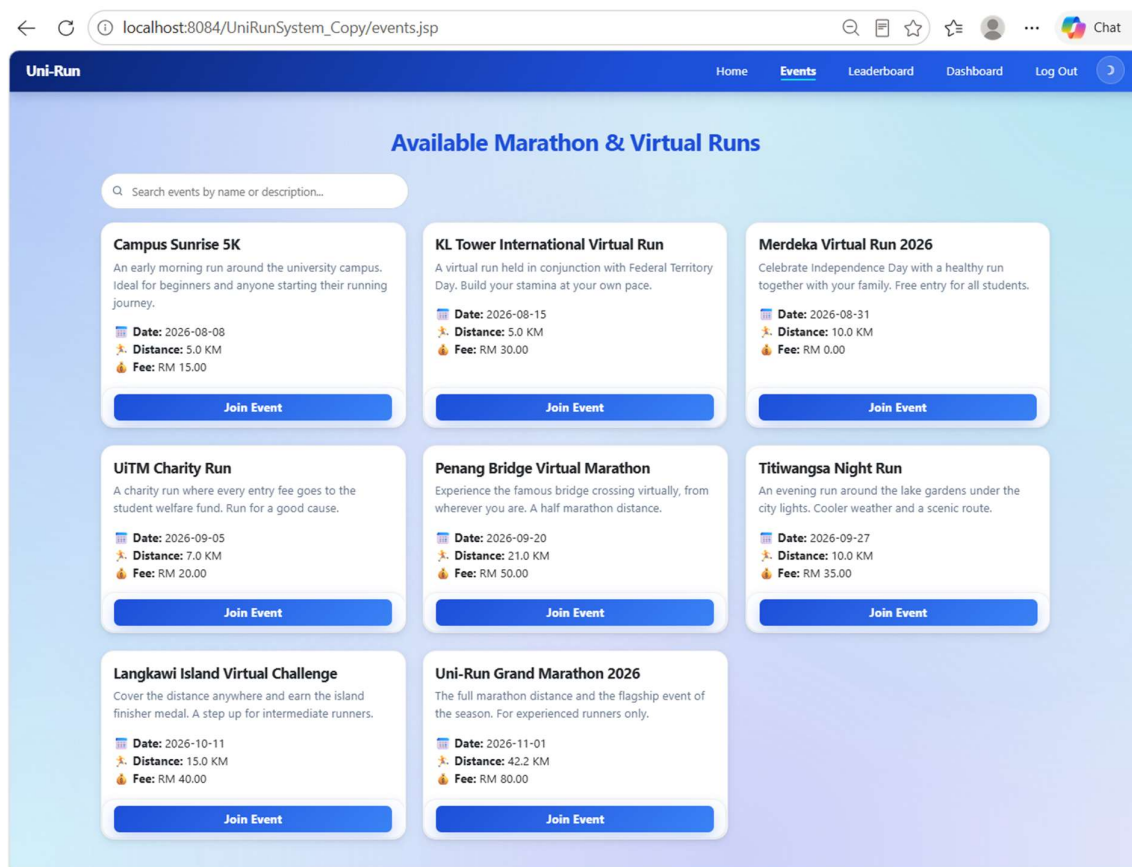

The screenshot displays the Uni-Run dashboard interface. At the top, a navigation bar includes links for Home, Events, Leaderboard, Dashboard (active), and Log Out. A welcome message for 'nazim azman' is shown, along with a success notification: 'Success. You have been registered for the event.' Below this, four summary cards are presented: '3 EVENTS JOINED', '0 RESULTS SENT', '0 APPROVED', and '0 PENDING REVIEW'. The 'Your Registered Events' section features a table with the following data:

EVENT NAME	DATE	DISTANCE	REGISTRATION DATE	STATUS
KL Tower International Virtual Run	2026-08-15	5.0 KM	2026-07-28 20:51:59.0	Registered
Merdeka Virtual Run 2026 Updated	2026-08-31	10.0 KM	2026-07-28 20:53:13.0	Registered
Penang Bridge Virtual Marathon	2026-09-20	21.0 KM	2026-07-28 20:53:15.0	Registered

iv. Events page

The Events Page displays all available marathon and virtual run events in the Uni-Run system. Users can view event information, search for events, and register for an event by clicking the “Join Event” button.

- **Search Events:** Users can search for an event by entering the event name or description in the search bar.
- **View Event Details:** Users can view the event name, description, date, distance, and registration fee.
- **Join Event:** Click the “Join Event” button to register for the selected event.
- **View Dashboard:** Users can return to the Dashboard to view their registered events.
- **Log Out:** Click “Log Out” from the navigation bar to end the current session.

v. Event Registration

After clicking the “Join Event” button, the user will be redirected to the Dashboard. A success message will be displayed, and the registered event will appear under the “Your Registered Events” section with the status “Registered”.

The screenshot displays the Uni-Run Dashboard for user 'nazim azman'. The top navigation bar includes links for Home, Events, Leaderboard, Dashboard (active), and Log Out. A welcome message is followed by a success notification: 'Success. You have been registered for the event.' Below this, four statistics are shown: 1 Events Joined, 0 Results Sent, 0 Approved, and 0 Pending Review. The 'Your Registered Events' section features a table with one event listed.

EVENT NAME	DATE	DISTANCE	REGISTRATION DATE	STATUS
KL Tower International Virtual Run	2026-08-15	5.0 KM	2026-07-28 20:51:59.0	Registered

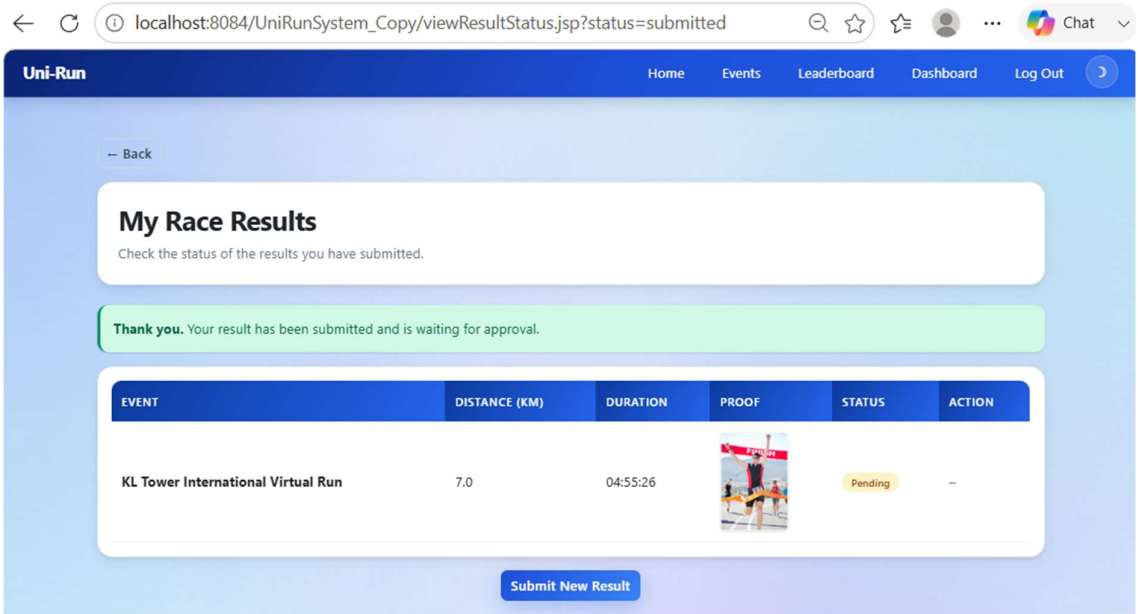

vi. Submit Result Page

The Submit Result Page allows participants to submit their race results for registered events. Users are required to select an event, enter the distance achieved and duration, and upload a proof image. After submission, the result will be sent for administrator review and approval.

- **Select Event:** Select the registered event from the available event list.
- **Enter Distance Achieved:** Enter the completed running distance in kilometres (km).
- **Enter Duration:** Enter the time taken to complete the run.
- **Upload Proof Image:** Upload a JPG or PNG image as proof of the completed run.
- **Submit Result:** Click the “Submit Result” button to send the race result for review.
- **View Result Status:** Users can view the submitted result and check its current approval status.

The screenshot shows a web browser window with the URL `localhost:8084/UniRunSystem_Copy/submitResult.jsp`. The page has a dark blue header with the 'Uni-Run' logo and navigation links: Home, Events, Leaderboard, Dashboard, and Log Out. A 'Back' button is located at the top left of the main content area. The main heading is 'Submit Your Race Result' with a subtext: 'Choose an event you have registered for and upload the proof of your run.' The form contains four sections: 'Select Event' with a dropdown menu showing 'KL Tower International Virtual Run'; 'Distance Achieved (km)' with a text input field containing '7.0'; 'Duration' with a text input field containing '04:55:26'; and 'Proof Image' with a 'Choose File' button and a filename 'Let's Run.png'. Below the file input, it says 'JPG or PNG only, up to 5 MB.' A large blue 'Submit Result' button is at the bottom of the form. At the very bottom of the page, there is a link that says 'View my result status'.

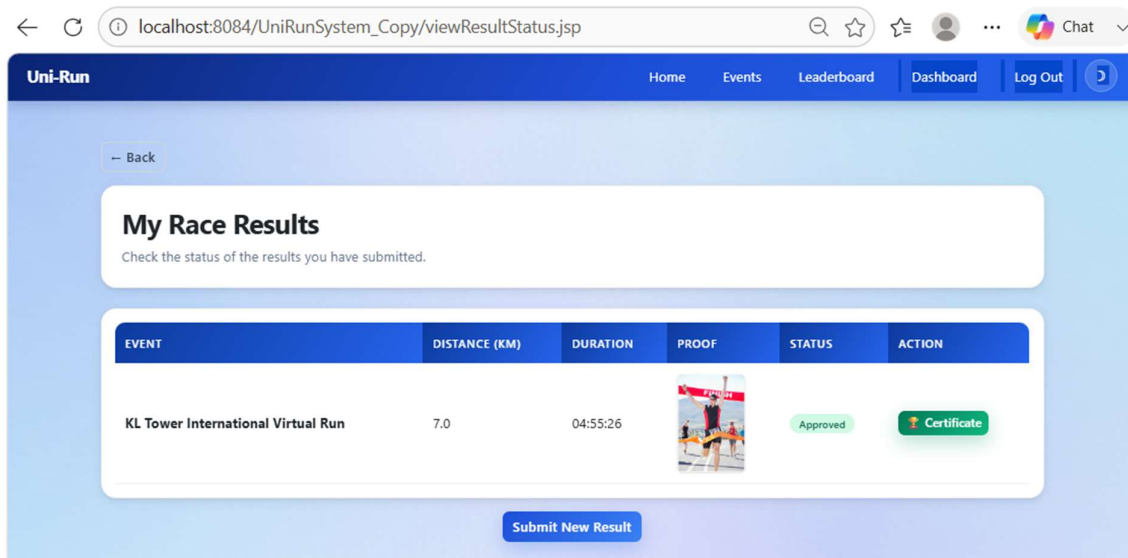

After submitting the race result, the system displays the submitted result with a **Pending** status while waiting for administrator approval.

vii. Result Status Page

The Result Status Page allows participants to view the status of their submitted race results. Users can review their race details, proof image, approval status, and access their certificate once the result has been approved.

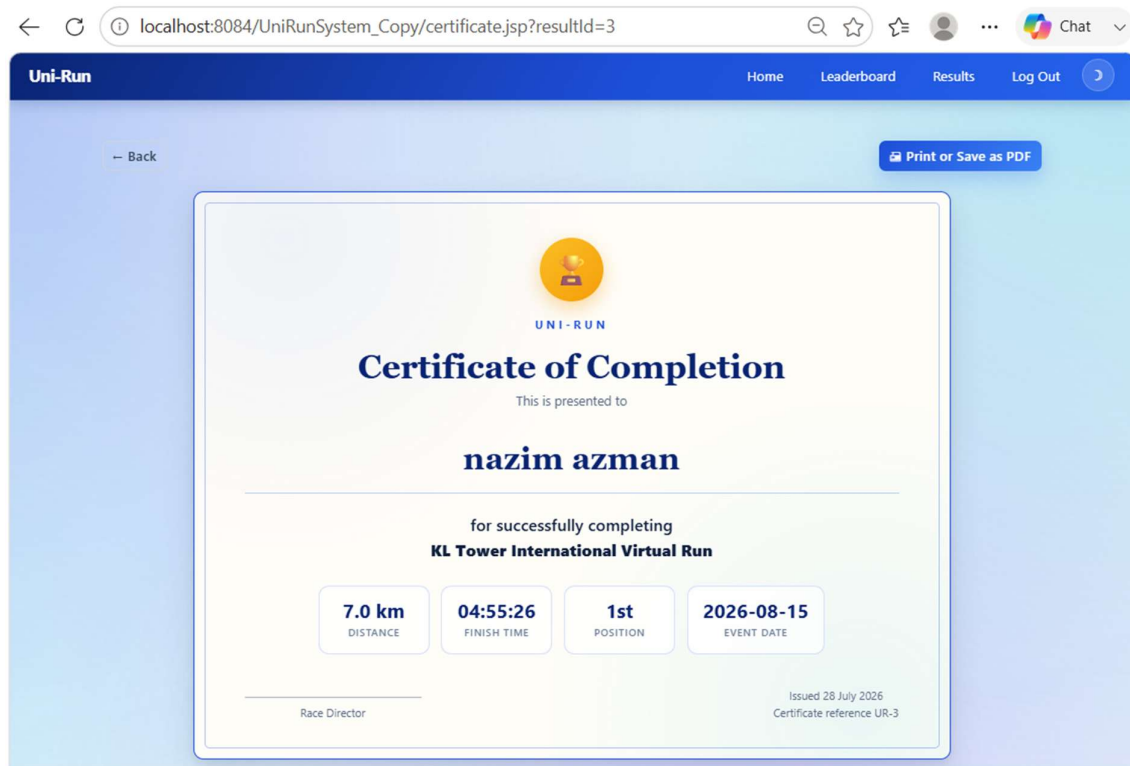

- **View Result Details:** Users can view the event name, distance achieved, duration, and uploaded proof image.
- **Check Approval Status:** Users can check whether their submitted result is Pending or Approved.
- **View Certificate:** Once the result is approved, the “Certificate” button will become available.
- **Submit New Result:** Users can click “Submit New Result” to submit a result for another registered event.

viii. Certificate Page

The Certificate Page displays the Certificate of Completion for participants whose race results have been approved. The certificate provides the participant's achievement details and can be printed or saved as a PDF.

- **View Certificate Details:** Users can view their name, event name, distance, finish time, position, and event date.
- **Certificate Reference:** A unique certificate reference is displayed on the certificate.
- **Print or Save as PDF:** Click the “Print or Save as PDF” button to print or save the certificate.
- **Back:** Click the “Back” button to return to the previous page.

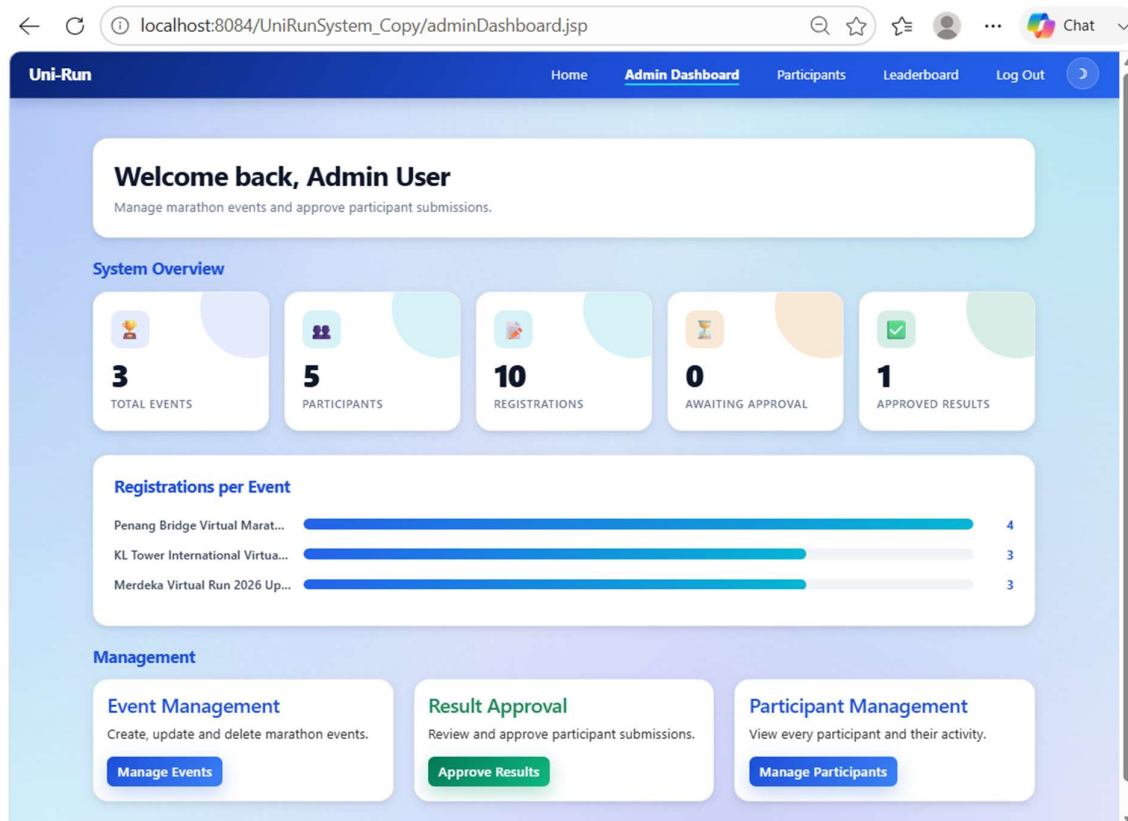

Admin Interface

i. Admin Dashboard

The Admin Dashboard provides administrators with an overview of the Uni-Run system. Administrators can monitor events, participants, registrations, and race result submissions, as well as access the main management functions.

- **View System Overview:** Displays the total number of events, participants, registrations, results awaiting approval, and approved results.
- **View Registrations per Event:** Shows the number of participant registrations for each event.
- **Manage Events:** Allows the administrator to create, update, and delete marathon events.
- **Approve Results:** Allows the administrator to review and approve participant race results.
- **Manage Participants:** Allows the administrator to view participants and their activities.

ii. Event Management

The Event Management Page allows administrators to manage all marathon and virtual run events in the Uni-Run system. Administrators can view existing event information and access functions to add, edit, or delete events.

- **View Events:** Displays the event name, description, date, distance, and registration fee.
- **Search Events:** Administrators can search for existing events using the search bar.
- **Add Event:** Allows administrators to create a new event.
- **Edit Event:** Allows administrators to update existing event information.
- **Delete Event:** Allows administrators to remove an event from the system.

The screenshot shows the Uni-Run Event Management page. At the top, there is a navigation bar with 'Uni-Run' on the left and 'Dashboard', 'Manage Events', 'Participants', and 'Log Out' on the right. Below the navigation bar, the page title 'Event Management' is displayed. A search bar with the placeholder text 'Search events...' is located below the title. To the right of the search bar is a green button labeled '+ Add Event'. Below these elements is a table with 8 rows of event data. Each row has columns for ID, Event Name, Description, Date, Distance, Fee (RM), and Action. The Action column contains 'Edit' and 'Delete' buttons for each event.

ID	EVENT NAME	DESCRIPTION	DATE	DISTANCE	FEES (RM)	ACTION
1	KL Tower International Virtual Run	A virtual run held in conjunction with Federal Territory Day. Build your stamina at your own pace.	2026-08-15	5.0 KM	RM 30.00	Edit Delete
2	Penang Bridge Virtual Marathon	Experience the famous bridge crossing virtually, from wherever you are. A half marathon distance.	2026-09-20	21.0 KM	RM 50.00	Edit Delete
3	Merdeka Virtual Run 2026	Celebrate Independence Day with a healthy run together with your family. Free entry for all students.	2026-08-31	10.0 KM	RM 0.00	Edit Delete
4	Campus Sunrise 5K	An early morning run around the university campus. Ideal for beginners and anyone starting their running journey.	2026-08-08	5.0 KM	RM 15.00	Edit Delete
5	UITM Charity Run	A charity run where every entry fee goes to the student welfare fund. Run for a good cause.	2026-09-05	7.0 KM	RM 20.00	Edit Delete
6	Titiwangsa Night Run	An evening run around the lake gardens under the city lights. Cooler weather and a scenic route.	2026-09-27	10.0 KM	RM 35.00	Edit Delete
7	Langkawi Island Virtual Challenge	Cover the distance anywhere and earn the island finisher medal. A step up for intermediate runners.	2026-10-11	15.0 KM	RM 40.00	Edit Delete
8	Uni-Run Grand Marathon 2026	The full marathon distance and the flagship event of the season. For experienced runners only.	2026-11-01	42.2 KM	RM 80.00	Edit Delete

Add Event:

The Add Event function allows administrators to create a new marathon or virtual run event by entering the required event details. Once completed, the administrator can click “Save Event” to add the event to the system.

The screenshot shows the 'Add New Event' form in the Uni-Run application. The form is titled 'Add New Event' and contains the following fields:

- Event Name:** Putrajaya Virtual Run 2026
- Description:** Join the Putrajaya virtual run and complete the challenge from anywhere.
- Event Date:** 30/09/2026
- Distance (KM):** 10
- Fee (RM):** 39.90

At the bottom of the form, there are two buttons: 'Save Event' (green) and 'Cancel' (grey).

The screenshot shows the 'Event Management' page in the Uni-Run application. The page has a header with the title 'Event Management' and a '+ Add Event' button. Below the header, there is a green notification bar that says 'The event has been created.' and a search bar labeled 'Search events...'. The main content is a table with the following data:

ID	EVENT NAME	DESCRIPTION	DATE	DISTANCE	FEE (RM)	ACTION
1	KL Tower International Virtual Run	Larian maya sempena hari wilayah tingkatkan stamina anda.	2026-08-15	5.0 KM	RM 30.00	<button>Edit</button> <button>Delete</button>
2	Penang Bridge Virtual Marathon	Rasai pengalaman larian rentas jambatan secara maya dari rumah.	2026-09-20	21.0 KM	RM 50.00	<button>Edit</button> <button>Delete</button>
3	Merdeka Virtual Run 2026 Updated	Sambut hari kemerdekaan dengan larian sihat bersama keluarga.	2026-08-31	10.0 KM	RM 0.00	<button>Edit</button> <button>Delete</button>
5	Putrajaya Virtual Run 2026	Join the Putrajaya virtual run and complete the challenge from anywhere.	2026-09-30	10.0 KM	RM 39.90	<button>Edit</button> <button>Delete</button>

Edit Event:

The Edit Event function allows administrators to update existing event information such as the event name, description, date, distance, and registration fee.

Delete event:

The Delete Event function allows administrators to remove an existing event. A confirmation message is displayed before deletion to prevent accidental removal.

The screenshot shows the Uni-Run Event Management interface. A confirmation dialog box is displayed in the center, asking "Delete this event? Its registrations and results will be removed too." with "OK" and "Cancel" buttons. The background interface includes a search bar, a table of events, and a "+ Add Event" button. The table lists 10 events with columns for ID, Event Name, Description, Date, Distance, Fee (RM), and Action (Edit/Delete).

ID	EVENT NAME	DESCRIPTION	DATE	DISTANCE	FEE (RM)	ACTION

iii. Result Approval

The Result Approval page allows administrators to review participant race result submissions and manage their approval status. Administrators can view submission details, approve or reject results, search for specific submissions, and export the result data to a CSV file.

The screenshot displays the 'Result Approval' page of the Uni-Run system. The page features a search bar at the top with the placeholder text 'Search by participant, event or status...'. Below the search bar is a table listing race results. The table has the following columns: ID, PARTICIPANT, EVENT, DISTANCE, DURATION, PROOF, STATUS, and ACTION. The STATUS column shows 'Pending' for ID 16 and 'Approved' for all other entries. The ACTION column contains 'Approve' and 'Reject' buttons for each row. An 'Export CSV' button is located in the top right corner of the table area.

ID	PARTICIPANT	EVENT	DISTANCE	DURATION	PROOF	STATUS	ACTION
16	Ahmad Bin Abdul Rahman	Titivangsa Night Run	10.0 KM	01:01:47	None	Pending	Approve Reject
1	Nina Kamarul	KL Tower International Virtual Run	5.05 KM	00:29:58	None	Approved	Approve Reject
2	Ali Participant	KL Tower International Virtual Run	5.2 KM	00:32:50	None	Approved	Approve Reject
3	Aisya Sofea Binti Abdul Halim	Penang Bridge Virtual Marathon	21.4 KM	02:15:09	None	Approved	Approve Reject
4	Daniel Tan Wei Ming	Campus Sunrise 5K	5.1 KM	00:21:47	None	Approved	Approve Reject
5	Farah Nadia Binti Zulkifli	Campus Sunrise 5K	5.05 KM	00:23:12	None	Approved	Approve Reject
6	Nina Kamarul	Campus Sunrise 5K	5.0 KM	00:24:58	None	Approved	Approve Reject
7	Rajesh Kumar A/L Suresh	Campus Sunrise 5K	5.15 KM	00:26:40	None	Approved	Approve Reject
8	Siti Aminah Binti Yusof	Campus Sunrise 5K	5.02 KM	00:28:15	None	Approved	Approve Reject
9	Ahmad Bin Abdul Rahman	Campus Sunrise 5K	5.2 KM	00:30:02	None	Approved	Approve Reject
10	Daniel Tan Wei Ming	UiTM Charity Run	7.1 KM	00:33:05	None	Approved	Approve Reject
11	Farah Nadia Binti Zulkifli	UiTM Charity Run	7.0 KM	00:34:20	None	Approved	Approve Reject
12	Ali Participant	UiTM Charity Run	7.05 KM	00:37:55	None	Approved	Approve Reject
13	Siti Aminah Binti Yusof	UiTM Charity Run	7.0 KM	00:39:41	None	Approved	Approve Reject
14	Rajesh Kumar A/L Suresh	Titivangsa Night Run	10.2 KM	00:52:30	None	Approved	Approve Reject
15	Nina Kamarul	Titivangsa Night Run	10.05 KM	00:55:12	None	Approved	Approve Reject
17	Siti Aminah Binti Yusof	Merdeka Virtual Run 2026	10.1 KM	00:58:20	None	Rejected	Approve Reject

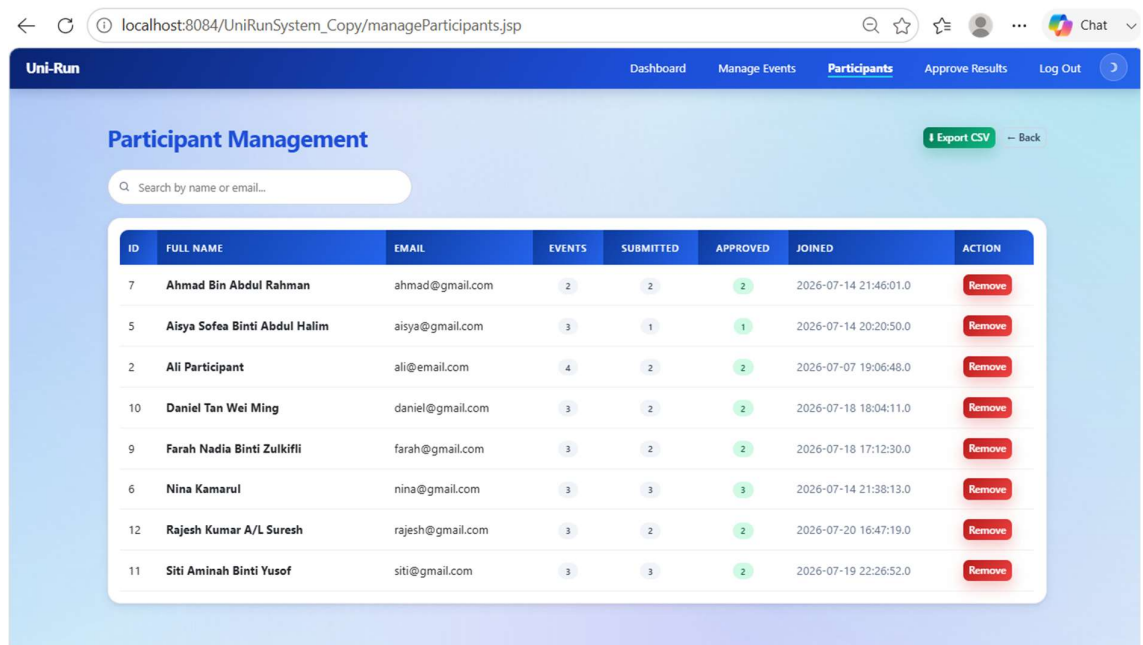

After approving the participant's race result, the system updates the submission status to **Approved** and displays a confirmation message indicating that the submission has been successfully approved.

The screenshot shows a web application interface for 'Uni-Run'. The browser address bar indicates the URL: `localhost:8084/UniRunSystem_Copy/approveResults.jsp?status=approved`. The application has a navigation bar with 'Dashboard', 'Approve Results' (active), 'Participants', and 'Log Out'. A 'Result Approval' section features a green confirmation message: 'The submission has been marked as approved.' and an 'Export CSV' button. Below this is a search bar and a table of race results.

ID	PARTICIPANT	EVENT	DISTANCE	DURATION	PROOF	STATUS	ACTION
1	Nina Kamarul	KL Tower International Virtual Run	5.05 KM	00:29:58	None	Approved	Approve Reject
2	Ali Participant	KL Tower International Virtual Run	5.2 KM	00:32:50	None	Approved	Approve Reject
3	Aisya Sofea Binti Abdul Halim	Penang Bridge Virtual Marathon	21.4 KM	02:15:09	None	Approved	Approve Reject
4	Daniel Tan Wei Ming	Campus Sunrise 5K	5.1 KM	00:21:47	None	Approved	Approve Reject
5	Farah Nadia Binti Zulkifli	Campus Sunrise 5K	5.05 KM	00:23:12	None	Approved	Approve Reject
6	Nina Kamarul	Campus Sunrise 5K	5.0 KM	00:24:58	None	Approved	Approve Reject
7	Rajesh Kumar A/L Suresh	Campus Sunrise 5K	5.15 KM	00:26:40	None	Approved	Approve Reject
8	Siti Aminah Binti Yusof	Campus Sunrise 5K	5.02 KM	00:28:15	None	Approved	Approve Reject
9	Ahmad Bin Abdul Rahman	Campus Sunrise 5K	5.2 KM	00:30:02	None	Approved	Approve Reject
10	Daniel Tan Wei Ming	UiTM Charity Run	7.1 KM	00:33:05	None	Approved	Approve Reject
11	Farah Nadia Binti Zulkifli	UiTM Charity Run	7.0 KM	00:34:20	None	Approved	Approve Reject
12	Ali Participant	UiTM Charity Run	7.05 KM	00:37:55	None	Approved	Approve Reject
13	Siti Aminah Binti Yusof	UiTM Charity Run	7.0 KM	00:39:41	None	Approved	Approve Reject

iv. Participant Management

The Participant Management page allows administrators to view and manage registered participants in the Uni-Run system. It displays participant information including full name, email, number of joined events, submitted results, approved results, and registration date. Administrators can also search for participants and remove participant accounts when necessary.

6. Conclusion

The UNI-RUN – Marathon & Virtual Run Coordinator System was successfully developed as a centralized web-based platform for managing marathon and virtual running activities. The system provides participants with functions to register an account, view and join available events, submit race results, track approval status, and access certificates for approved results. It also provides administrators with functions to manage events, review race result submissions, and manage participant information.

Overall, the system integrates the main processes of event management, participant registration, result submission, and result verification into a single platform. The implementation of the system demonstrates the use of Java Web Technology and the Model View Controller (MVC) architecture in developing an organized and functional web-based application.
